Fire and Burns

Vampires fear fire, for it is one of the few things that can end their immortal existences. Fire damage is aggravated and ignores armor; it may be soaked only with Fortitude. A fire's size determines the levels of aggravated damage a character endures per turn, while its heat determines the difficulty of the Fortitude soak roll. A character suffers the full damage effect for each turn that she's in contact with the flames; she must leave the area and/or put out any fire on her to stop taking damage. All damage inflicted by fire is automatically successful unless soaked (i.e., a character trapped in a bonfire takes two *automatic* health levels of damage per turn, not the results of two damage dice per turn).

Soak Difficulty	Heat of Fire
3	Heat of a candle (first-degree burns)
5	Heat of a torch (second-degree burns)
7	Heat of a Bunsen burner (third-degree burns)
8	Heat of an electrical fire
9	Heat of a chemical fire
10	Molten metal

Health Levels/Turn	Size of Fire
One	Torch; a part of the body is exposed to flame
Two	Bonfire; half of the body is exposed to flame
Three	Raging inferno; entire body is engulfed in flame

If your character falls to Maimed, she is scarred temporarily by the flames (reduce Appearance by one until her wounds recover to Bruised). If she is reduced to Crippled or Incapacitated by the fire, the burns cover the majority of her body, reducing Appearance by two.

Frenzy and Röttschreck

Trapped within the false civility of the Camarilla and the forced camaraderie of the Sabbat, there is a hidden truth: Vampires are monsters, possessed of an inner Beast. Though, like humans, they have the capability to overrule their baser instincts, sometimes they fail. When this occurs, the Hunger and the Beast become uncontrollable, and no one is safe from their excesses. Older vampires refer to the ensuing savage fits as "succumbing to the Beast Within." Younger Kindred refer to these outbursts simply as *frenzies*.

The Nature of the Beast

During a frenzy, a character literally — and usually unwillingly — gives into the darkest instincts of the vampiric nature. The character is consumed with rage or hunger, unable — or unwilling — to consider the effects of any action. Friends, foes, lovers, ethics: None of these things matter to a vampire in frenzy. If a vampire in frenzy is hungry, he will feed from whoever is closest without regard for the vessel's well-being. If the vampire is angry, he will do everything in his power to destroy the cause of his anger. A vampire struck by fear will commit any atrocity to remove himself from the source of his terror, regardless of the consequences. The character completely surrenders to the basest aspects of his Nature, shunting aside the Demeanor most commonly presented to those around him. He is, in short, the Beast.

In the Camarilla, succumbing to frenzy is seen as weakness, a humiliating loss of control. Vampires who frenzy often, and especially in public, run the risk of social rejection or worse. Though many among the Camarilla Kindred are monsters through and through, the laws of the Masquerade and simple civility require that the Beast be kept in check; those who cannot do so are not vampires, but animals, and should be put down for the good of all. Among the Sabbat, frenzy is seen as a natural urge, like mortals' needs for food and sex. Sabbat vampires deride the Camarilla's attitude toward frenzy as that of weak-willed fools who cannot accept their true predatory nature. Accordingly, Sabbat typically seek not to prevent frenzy, but to control it and use it to their advantage.

A frenzy can be induced by many things, but great rage or hunger are the most common provocations. It is dangerous to deny or humiliate the undead. For
